PROFESSIONAL SUMMARY

Frontend web developer with 25+ years of client-facing experience and a proven track record of translating complex business needs into clean, functional digital experiences. Combines deep expertise in CRM systems, data analysis, and process improvement with modern technical skills in React, TypeScript, Next.js, and full-stack development.

TECHNICAL SKILLS

React, TypeScript, JavaScript, Next.js, HTML5, CSS3/SCSS, TailwindCSS, Node.js, Firebase (Auth, Firestore), Prisma ORM, REST APIs, Git/GitHub, Vercel, Stripe, Clerk, Jest, Figma, CRM & ERP Systems (Emplifi, Salesforce, SAP)

PROJECTS

[Skinstric A.I. Clone](#)

- Built a pixel-perfect React clone featuring interactive diamond UI components, form handling, and API integration.
- Implemented responsive design with custom breakpoints (1024px, 768px, 640px) with hover effects, animations, and visual polish.

[Netflix Clone](#)

- Full-stack streaming platform clone using React, Firebase (Auth & Firestore), and TMDB API integration.
- Implemented user authentication, dynamic content loading, Firestore security rules, and responsive UI with skeleton loading states.

[Summarist Audiobook Platform](#)

- Developed a full-stack audiobook streaming platform with player implementation, library management, and Stripe billing integration.
- Features include Clerk authentication, payment processing, and optimized loading states for enhanced user experience.

[NFT Marketplace](#)

- An FES Institute bootcamp project building an NFT marketplace with modern React patterns and responsive design.
- Implemented responsive grid layout and dynamic routing (/item-details/:id) for NFT browsing and detail pages.

PROFESSIONAL EXPERIENCE

Jelly Belly Candy Company — Fairfield, CA

Customer Service Representative, Business Accounts | 2024 — 2025

- Create and manage business client accounts; partner with sales teams for smooth B2B onboarding and support.
- Leverage CRM (Emplifi) hierarchy and reporting systems to identify trends and streamline decision-making.

Senior Consumer Affairs Representative | 2007 — 2024

- Investigated and resolved consumer issues, maintaining top satisfaction ratings; led initiatives to re-engage inactive customers and boost repeat sales.
- Developed and maintained CRM (Emplifi) reporting systems to identify trends in quality, packaging, and shipping.
- Created ad-hoc reports for senior management and trained/mentored new team members.

Hotline Representative | 2000 — 2007

- Supported website catalog management and customer online navigation.
- Created custom Excel order forms and provided computer support to colleagues.

EDUCATION

Frontend Simplified — Certificate of Graduation, Frontend Web Development | 2026

- Intensive bootcamp training in React, TypeScript, Next.js, Firebase, Stripe, and modern frontend development workflows.

University of Phoenix — Bachelor of Science, Business | 2005

Heald College, School of Business — AAS, Accounting | 1997

Solano Community College — General Education & Theater Arts/Public Speaking | 1991
